

The Farm

The low temperatures combined with high relative humidity ensures that the coffee at this elevation is covered in mist for large portions of the growing days. This contributes to the slow ripening and development of the fruit's acid content which produces a higher quality coffee.

Use your mouse to go up, down and around in the image. Zoom in: 'A' key. Zoom out: 'Z' key.

Trouble viewing the image?

Firefox: Go to Tools > Options > Content > Enable Java.

Internet Explorer: Go to Tools > Internet Options > Advanced > scroll down and enable "Java (Sun)" >

Next, select the Security Tab > Custom Level > Scroll down to "Scripting of Java applets" > Make sure the "Enable" radio button is checked > Click OK to save your preference.
